

POP DECLARATION OF CONFORMITY

Dear Customer,

We would like to inform you that COTHERM is informed of persistent organic pollutants regulation (POP convention and Protocol).

Based on information regarding COTHERM manufacturing and process, data obtained from our suppliers and subcontractors concerning raw material usage and knowledge of applicable standards for our products, COTHERM hereby declares:

All COTHERM products are compliant with POP regulation n°850/2004 (EU) from the European Parliament modified by 13th November 2015 regulation from European Commission, and do not contain hazardous chemical substances listed under this regulation.

Our company COTHERM takes the necessary measures to insure compliance with POP requirements in all products we deliver to your company.
